Pigs have 44 teeth. How many teeth would 5 pigs have?

\[
\begin{align*}
4 + 4 &= 8 \\
8 + 8 &= 86 \\
86 + 8 &= 16 \text{ (answer)}
\end{align*}
\]

\[
\begin{align*}
40 + 40 &= 80 \\
80 + 80 &= 160 \\
160 + 40 &= 200
\end{align*}
\]

I did mine by writing 44 five times. Then I added 2, if that equaled 8. Then the next 2 is 8 right? So 8 + 8 = 16 so I wrote 160.0 and 16 + 40 = 156.0. The final answer is 276.
